

Make your vision a reality.

The LaunchPad Legal Services Package provides unique services that enable start-ups to build their initial infrastructure and launch their concepts into profitable enterprises.

The members of the LaunchPad team met with us, understood our requirements, and advised us which type of business (LLC, C-corp, S-corp) would be best for us currently, and how best to structure it based on our accountant's input (sole owner vs. partner, state of filing, etc.). Their services were timely, complete, and met our expectations. Overall, excellent quality, amazing advice, and fast service at a reasonable fixed price. No hidden fees; no extra billables, filing charges, printing charges, etc. Greatly appreciated! This LaunchPad service is highly recommended, and we look forward to working with Leech Tishman in the future should we require any further legal advice or needs.

- Recent Client in the Food & Beverage Industry
